

Out In The Rain

Cory Marks

We were young, we were lost
But we travelled not knowing the cost
Nothing behind us, just road ahead
Unashamed of the things that we did

It's you who asked me to stay
It's you who pushed me away

Out in the rain, where I've been for days
I'll stay forever here in the storm
Out in the rain, until your heart changes
I've made this weather, this weather my home
Out in the rain

Days have come days have gone
But I'll stay on this road till it's done
The stars remind me of when we were one
Before all of my sky came undone

It's you who's making this hard
It's you who pushed me this far
Out in the rain where I've been for days
I'll stay forever here in the storm
Out in the rain until your heart changes
I've made this weather, this weather my home
Out in the rain

Out in the rain
Yeah it's you who pushed me away
It's you cause it's never too late
Out in the rain where I've been for days
I'll stay forever here in the storm
Out in the rain until your heart changes
I've made this weather, this weather my home

Out in the rain where I've been for days
I'll stay forever here in the storm
Out in the rain until your heart changes
I've made this weather, this weather my home
Out in the rain
