

Snowbirds

Cory Marks

I've been dreaming of flying since I was a kid
Soaring higher than anyone's ever been
Side by side with eight of my other friends
That all came true when I heard snowbirds check in

They wear the red and white
Watch for those nine twinkling lights
Big diamond go
I hope you enjoy the show
Yeah that's how the snowbirds roll

They're coming to a town near you
Represent the great white north
Skills, family and the truth
They're flying through the clear blue sky
Their white smoke trails behind
Rolling to that sunshine
Split now when you hear the word
Snowbird

Ooh
Yeah, yeah

They're coming to a town near you
Represent the great white north
Skills, family and the truth
They're flying through the clear blue sky
Their white smoke trails behind
Rolling to that sunshine
Split now when you hear the word
Split now when you hear the word
Snowbird

Snowbird
Snowbird

I've been dreaming of flying since I was a kid
