

Best Low

Cory Morrow

This is the best low
I've ever had
You make me high
Oh so glad
To be alive
And then say
I'm lettin' go
I'm almost there
Somebody open up the doors
I've had enough of this down here
I'm gonna fly
Straight through the clouds
There's no way I could describe
The way I feel right now
I feel love
Down deep inside
You thought I was drunk
The day I met you I was high
Let's take it slow
Oh don't go so fast
Baby we got time
Let's make it last
We'll get by
We will sustain
By letting go
We're almost there
Somebody open up the doors
I've had enough of this down here
I'm gonna fly
Straight through the clouds
There's no way I could describe
The way I feel right now

But I feel love
Love down deep inside
You thought I was drunk
The day I met you I was high
And I'm gonna fly high
Straight through the clouds
Oh so high that I won't ever
Wanna touch back down
I'm gonna fly
Straight through the clouds
There's no way I could describe
The way I feel right now
But I feel love
Love down deep inside
You thought I was drunk
The day I met you I was high
I'm gonna fly high
Straight through the clouds
Oh so high that I won't ever
Wanna touch back down
I said so high
I said so high
I had so high
That I won't ever

Touch back down no
Come on baby yeah yeah
Pick you up in my Cadillac
You can ride in the back
Yeah thats what I said
Feels good
Come on baby
