

# The Way I Do

Cory Morrow

There was you.  
There was me.  
A big yellow moon.  
And some stars on our side.  
And there were so many things we had to say  
Before we said good night  
Then you gave me a secret to keep  
And we talked until I fell asleep

Then I woke to the sound of your voice.  
The sunlight shining in my eyes  
Searching for words to a song  
That I heard in my dreams last night  
It was something about your heart  
And all of the love that it gives me  
The feeling that you're just right  
For me to love all my life

I'm hoping you're feeling the same  
Yes, I'm hoping you're feeling the same  
Way I do do do do  
Feeling the way I do

It's my favorite time of day  
Barely awake  
Yet but burning with life  
And love, I'm so in love  
Holding my breath  
Just give me one more night  
And one more night is all I ask  
And one more night after that

So I can wake to the sound of your voice  
The sunlight shining in my eyes  
Searching for words to a song  
That I heard in my dreams last night  
It was something about your heart  
And all of the love that it gives me  
The feeling that you're just right  
For me to love my whole life  
I'm hoping you're feeling the same  
Yes, I'm hoping you're feeling the same  
Way I do do do do  
Feeling the way I do

I'm hoping you're feeling the same.  
Yes I'm hoping you're feeling the same.
