

# Better Days

Cory Wells

I hear the rhythm  
I feel the bass  
I touch the black light  
I see your face  
I hear the rhythm  
I feel the bass  
Better days  
These are better days

I hear the rhythm  
I feel the bass  
Better days  
These are better days  
I hear the rhythm  
I feel the bass  
Better days  
These are better days

Bang on my [?]  
Dance on the feeling come  
Search through mystery  
So long, I need to leave

This is hunger  
I have seemed stronger  
This is hunger  
I could have seen this hunger  
This is stronger  
Can't you see?  
The mystery  
In the music

No I break the break  
I hear the rhythm  
I feel the bass  
I touch the black light  
I see your face  
I hear the rhythm  
I feel the bass  
Better days  
These are better days

I hear the rhythm  
I feel the bass  
Better days  
These are better days  
I hear the rhythm  
I feel the bass  
Better days  
These are better days

Bang on my [?]  
Dance on the feeling come  
Search through mystery  
So long, I need to leave

This is hunger

I have seemed stronger  
This is hunger  
I could have seen this hunger  
This is stronger  
Can't you see?  
The mystery  
In the music

No I break the break

Better days  
These are better days

Better days  
These are better days
