

Hopeless

Cory Wells

What does it feel like?
I wanna believe in something more
Cause I adore you
At least I used to

What does it feel like?
To wanna be something more than nothing?
Cause I'm not anyone anymore

What does it feel like?

I'm burning this down from the inside out
Stuck in a rut where I convinced myself
I'll never get up I'll never get out now
You're running away with everything we built
And I'm screaming my lungs out
Please stay with me this time

Before I change my mind

Take the past and try to wash it away
I wanna come clean
As clean as I can be
I'm fuckin' filthy

What does it feel like
To keep your head above the water?
Cause every day the tide is pulling me under

So what does it feel like?

I'm burning this down from the inside out
Stuck in a rut where I convinced myself
I'll never get up I'll never get out now
You're running away with everything we built
And I'm screaming my lungs out
Please stay with me this time

So don't forget that feeling
When your heart is beating right through your chest
Can barely breathe can't fucking speak
The pain is sinking in

I'm burning this down from the inside out
Stuck in a rut where I convinced myself
I'll never get up I'll never get out now
You're running away with everything we built
And I'm screaming my lungs out
Please stay with me this time

You gotta change my mind
