

## Weakness

Cory Wells

Just take it back  
I'm not coming back  
'Cause nothing that you said to me was true  
I can't forget the times when all I knew was you  
'Cause you stole my heart, grabbed a knife and drove it through  
And I still love you anyway

So please  
Say you love me back

And I strayed the path  
There's no turning back  
Every road I take just somehow leads to you  
And I sit and fantasize  
A world that screams  
"I still hate you"  
'Cause you stole my heart, grabbed a knife and drove it through  
And I still love you anyway

So please  
Say you love me back  
So please  
Say you love me back  
So please  
Say you'll take me back  
So please  
Say you'll take me back  
So please  
Say you love me back
