## **Never Apart**

**Cosmic Gate** 

No matter what they say, love No matter what they do to us No matter what may come, my dear Remember when I say

We're never apart, yeah

Feeling and screaming you're gone Feeling and dreaming on Feeling, screaming Feeling and dreaming on

We're never apart, yeah

Wherever you may be, love When storm and clouds appear Just think of me Wherever we may run Remember these three words

We're never apart, yeah
