

## Try

Cosmic Gate

Please don't turn away when I'm talking to you  
Cause I don't like leaving things unwound like this to you  
Two steps forward, one step back  
Moving too slow, you're way off track  
Are we out of our minds?  
Out of our minds, out of our minds

Try, put our egos aside  
Why can't we just try?  
It's all I'm asking us to do, I still love you

Try, put our egos aside  
Why can't we just try?  
It's all I'm asking us to do, I still love you

Try, put our egos aside  
Why can't we just try?  
It's all I'm asking us to do, I still love you
