

Borrowed Time

Cosmo's Midnight

Met you on a Friday
Bought the tickets late lucky we went
Soon I seen 'em green braids
Green belt bag baby I'm in

Took me on the highway
Took my hand in yours as well
How the hell I think I'd leave you

I got you
Sweet butterfly
This honey bee'll find you soon

This ain't what you wanted but

What we got is real
Pure gold
Something that you can't deny

Two souls apart
For how long
Bitter pill to swallow
Time alone is borrowed

Waiting on a sunshine
I only find when I wake in your bed
Crying after crunch time
Macaulay sulkin'
Home alone again
Fire from the both sides
Took a while to comprehend
I never gonna lose you

I got you
Sweet butterfly
This honey bee'll find you soon

This ain't what you wanted but

What we got is real
Pure gold
Something that you can't deny

Two souls apart
For how long
Bitter pill to swallow
Time alone is borrowed (time)

Waiting, calling, holding out
Just for them sunny days

Waiting, calling, holding out
Just for them sunny days

Holding out

Holding out

This ain't what you wanted but

What we got is real
Pure gold (Holding out)
Something that you can't deny

Two souls apart
For how long

This ain't what you wanted but

What we got is real
Pure gold
Something that you can't deny

Two souls apart
For how long
Bitter pill to swallow
Time alone is borrowed time

Holding out
Just for them sunny days

Holding out
Just for them sunny days
