

# Lowkey

Cosmo's Midnight

Yeah

If you really wanna we can keep it lowkey, hey

(Low, low, low low)

Keep it lowkey, ay

Won't no body know if we just keep it lowkey, yeah

(Low, low, low low)

Keep it lowkey, ay

I won't tell no body, we can keep it lowkey, ay

(Low, low, low low)

Keep it lowkey, ay

Won't no body know if we just keep it lowkey, yeah

(Low, low, low low)

Keep it lowkey, ay

I won't tell no body, we can keep it lowkey, ay

Baby got a man so I smash on the down low

We don't make no plans

It's just pants on the damn floor

We don't hit no clubs and no malls and no bars, nope

We be at the house (yep)

Bust a couple rounds (pssh)

When we out in public we casual and cordial

Next time that we fuck, baby girl, let me record you

I won't show nobody, I won't tell

I ain't got time babe, I swear I ain't gon' lie

I ain't your man, that ain't my job

Girl, now ride with me

We ducking off heading to a place

Where no one could [?], let's get lost

Said she got my number

Said say nothing when I call

So her man would never know

That I've been digging in 'em drawers

You know I never been a silent

Yeah, yes you wanna ride with me

I tell her baby, take your time with it

And tell me how you like it

You know I never been a silent

Yeah, yes you wanna ride with me

I tell her baby, take your time with it

And tell me how you like it

(Low, low, low low)

Keep it lowkey, ay

Won't no body know if we just keep it lowkey, yeah

(Low, low, low low)

Keep it lowkey, ay

I won't tell no body, we can keep it lowkey, ay

(Low, low, low low)

Keep it lowkey, ay

Won't no body know if we just keep it lowkey, yeah

(Low, low, low low)

Keep it lowkey, ay

I won't tell no body, we can keep it lowkey, ay

Okay, she lowkey on me down  
Keep a creeper needle like when are you coming 'round?  
Now she telling me she's familiar with my sound  
She ain't no groupie though  
Just a lil' choosy though  
Better be ? she can tend to be loosy bro  
Oh, what a sinner, the same old girl  
That be sneaking out for dinners  
Three course meal, ain't rich how you live on  
Wed the mess but this ain't right  
That's the difference  
Feeling like the feeling that we had is just not enough  
But I'm feeling that the feeling  
Guess you like to break it down  
We the youth, just taking a little sip from the fountain  
Disappear when we ain't be speaking for some hours  
Girl, I take a break, cut the door, stay clouded  
Now the throat stay clouded  
Hitting on my city like you wanna mess around  
But your man home, now you really gotta figure out shit

(Low, low, low low)  
You know I never been a silent  
Yeah, yes you wanna ride with me  
I tell her baby, take your time with it  
And tell me how you like it  
You know I never been a silent  
Yeah, yes you wanna ride with me  
I tell her baby, take your time with it  
And tell me how you like it

(Low, low, low low)  
Keep it lowkey, ay  
Won't no body know if we just keep it lowkey, yeah  
(Low, low, low low)  
Keep it lowkey, ay  
I won't tell no body, we can keep it lowkey, ay  
(Low, low, low low)  
Keep it lowkey, ay  
Won't no body know if we just keep it lowkey, yeah  
(Low, low, low low)  
Keep it lowkey, ay  
I won't tell no body, we can keep it lowkey, ay
