

## Mind Off

Cosmo's Midnight

I can take your mind off for today  
Moderating what you think until it disappears  
Connect and suffering; forget it's real  
Quiet your mind, I can take your mind off  
You know that I'm hearing all you say  
Words are pouring out your mouth like I know them  
It's getting warm in here, we better chill  
Baby just know I've got you until the darkness fades away

I can take your mind off for today  
You don't need to contemplate, I know you feel it too  
Nothing more to say, don't you make it complicated  
Quiet your mind, I can take your mind off  
Looking at phone, oh it's getting late  
Boy I know just how you feel and I don't want it  
It's getting hot in here, we better chill  
Baby just know I've got you until the darkness fades...when I'm  
here  
I can take your mind off
