Time Wasted

Cosmo's Midnight

My shadow's getting too long
Consideration takes too much time
Sunsets will string us along
Sunrise brings new maintains to climb

When my feelings are weighing down my soul
Asking myself, is this where I fall?

I can't satisfy you
I can't satisfy you
I can't satisfy

You want something to play with
Go find yourself a brand new toy
My heart's done with hiding shame
Now I'm daydreaming my own joy

When my feelings are weighing down my soul
Asking myself, is this where I fall?

I can't satisfy you
I can't satisfy you
I can't satisfy

All my feelings, all my time, wasted waiting on
All my feelings, all my time, wasted waiting on
All my feelings, all my time, wasted waiting on
All my feelings, all my time, wasted waiting on

You
I can't satisfy you
I can't satisfy you
I can't satisfy

I can't satisfy

All my feelings, all my time, wasted waiting on
All my feelings, all my time, wasted waiting on
