

Where U Been

Cosmo's Midnight

Lord forgive me
I swear I've been living reckless aye
I woke up loaded and got more faded for breakfast aye
Counting my hoes way before I counting my blessings
See evil up in this bottle
These spirits could get possessive
Ain't no lessons, ain't no [?]
You look back and see them hoes
Was full of [?], that's when it shift
I see niggas point the finger
When dey weapon got the prince
Shit 'em [?] ain't no bliss
when you play ignorant as this
No that cup that runeth over be the one that got us lit
Lost my mind and lost my wallet, lost my morals off [?]
No ain't brave enough to go and tell the world that I am shit
Still ain't brave enough to let ya know that girl that I've been with

Honey you like this
Got me I think, god, where you've been
When you off with your friends
Pray you call when you in, Amen
Come and sit with me
Meet you, Hennessy
The holy trinity yeah yeah

Lord forgive me
I know I've been living reckless
I woke up loaded and got more faded for breakfast
She took a shot and threw that box as a weapon
Don't get to close to my feelings
I promise that I feel threatened
Respect the will that don't take a bite from that apple
Respect is surely that treat herself like a chapel
When we get turnt all the bullshit go to the shadows
You hit my page you a problem I'm tryna tackle
Been battling and being thirsty since like MySpace
Know you by your phone so shit I'm tripping you reply late
Hit you in my vision, blurry shit, that be that blind fate
No this shit devine wait
No this shit devine wait
I keep saying

Got me I think, god, where you've been
When you off with your friends
Pray you call when you in, Amen
Come and sit with me
Meet you, Hennessy
The holy trinity yeah yeah
