Wriggle

Cosmo Sheldrake

Hey ho where did you go
Did you wriggle or roll
Did you giggle or grumble through

Tom Thumb from where did you come
Did you skip trip or stumble through

Go down, lets go down, lets go down
Don't you want to go down and wriggle on
Have a sing along, put some pickles on, and play the mellotron
Go down, lets go down, lets go down
Don't you want to come down and wriggle on
Count to 21, and go a right a wrong, and feed the pelicans

Say there the jug or the hare
The lift or the stairs
Which will it be for you?

How now big brown cow
The bow or the bow
The spade or the plow for you?

Go down, lets go down, lets go down
Don't you want to go down and wriggle on
Have a sing along, put some pickles on, and play the mellotron
Go down, lets go down, lets go down
Don't you want to come down and wriggle on
Count to 21, and go a right a wrong and feed the pelicans

But where will we go
When the bell it tolls for me
Both you and I know
When it tolls well it tolls for thee

Go down, lets go down, lets go down
Don't you want to go down and wriggle on
Have a sing along, put some pickles on, and play the mellotron
Go down, lets go down, lets go down
Don't you want to come down and wriggle on
Count to 21, and go a right a wrong, and feed the pelicans...
