

I will never ever ever ever  
Let you down  
I hold your crown  
Over your head  
Over your head  
But it's still in my hand  
Like a halo halo halo halo  
I don't do it cause you say so  
I do it before you know  
Muscles burning  
This isn't natural  
For your arms to be up  
To the heavens for so long  
One day I fell

You help yourself out  
So I'm gunna

Polish the pout  
Polish the pout  
Polish the pout  
Polish the pout  
Stick it out

Let you down  
One day I felt beauty and since you left all I got is me  
One day I felt beauty

Polish the pout  
Polish the pout  
Polish the pout  
Polish the pout  
Stick it out
