

Everywhere you see my trace  
Of my creation journey through the space  
The secret of the big bang's mine  
The science master of all time

If you really want to leave this hell  
Then listen to what I tell  
Drop out of society  
Leave it all and follow me

Don't worry 'bout the clothes to wear  
I'll find you food and shelter here  
Live your life to the full  
Cosmos is beautiful  
Cosmos is beautiful
