

## Masters Of All Evil

Count Raven

There is only one truth around us today  
I tell you what is gonna come, it ain't no fairy tale  
There is a group of families that holds our destiny  
In pact with the darkest one, they rule the economy  
The metropolitan 400 they are called  
But in the end the 7 families rule them all  
Those families of evil, set all presidents to rule  
But they are all just puppets, they're the masters' favourite tools

The masters of all companies you can call them too  
So much money it seems with it they don't know what to do  
For instance they financed the entire world war two  
Or did you think that Hitler all alone could pull it through  
But that occurrence it is a story of its own  
An attempt to get the darkest one much earlier on the throne  
And the war against the jews, it's so very clear  
Without them on this earth the proof of God wouldn't be here  
Would it ?!

You're truly the masters of evil  
Abomination, the ultimate sin  
Rats, cold hearted rats  
Rats, cold hearted rats  
Destroyers of earth and the father's foundation  
You'll burn in hell 'cause it's your dream  
Cold hearted rats  
Rats, cold hearted rats

A thousand years of crying  
All those fears and denyings  
The 7 families are here  
The 7 years are near

Marx called them "das Kapital", we say democracy  
God call them the devil, so many names, it's hard to see  
Those sick perverted assholes must achieve their goal  
To lose this war with Satan, and thrash all human souls

Global destruction; their number one game  
Or is the hole in the sky a joke of the insane  
So let them have your money, just don't give them your soul  
Live free and easy and remember what I told
