

## Better Ways

### Count The Stars

Whatever it takes, to make you mine  
Now sharpen your teeth and bite my pride  
Whatever it takes, no I won't mind  
No I won't mind without you  
No she said, I can't work this hard for you  
No she said, I can't work this hard for you  
You showed me everyday, all of the better ways  
Of living everyday, it's true  
You took it all away, all of the better ways  
Of living everyday, it's true  
I suck it up, it's like dying again  
You fought with the words you held in your hand  
Stop wasting away, the better ways  
Stop wasting away without you  
With life in motion, this emotion is real  
With life in motion, pure emotion is real
