

## Waste Of Life

Count The Stars

We wake up at 3, and fall back asleep  
Because leaving here is just a waste of energy and time  
With so much to do, and nothing to lose, no motivation picks me  
up  
And puts me on my way  
And so I say, im just a waste of life  
I found my place, im just a waste of life  
To live this way, just a waste of life  
And I don't care at all  
Something in me, has changed and I think  
I'll never grow to be the one you want me to become  
With so much to do, and nothing to lose, no motivation picks me  
up and puts  
Me on my way
