Take It Easy

I was never one for waiting
Yet I was always hesitating
I will be the first
To say I deserve the worst
But I need this more than you know
'Cause I've failed at so many things
So I will not let this be
Another on the list

We breathe it in,
We breathe it out
And still we've yet to be breathless

We breathe it in,
We breathe it out
And still we've yet to be breathless

So take it easy on me
Take it easy
I'm so foolish at times
You know this,
You know

So take it easy on me
Take it easy
I believe in something
I have nothing to show for

I was down and I was bleeding
Lost so much
But I was still dreaming
Of a time when I
Could be happy in my life
And I know girl,
This is hard on you
But I'll bring back
That smile I once knew
You're a dream come true;
I'm coming back for you.

We breathe it in,
We breathe it out
And still we've yet to be breathless

We breathe it in,
We breathe it out
And still we've yet to be breathless

So take it easy on me
Take it easy
I'm so foolish at times
You know this,
You know

So take it easy on me
Take it easy
I believe in something

I have nothing to show for
I believe in something
I have nothing to show for

You can tell by the way we laugh
There's no place we'd rather be
The way we leave
There's nothing that's worth more than this

We breathe it in,
We breathe it out
We breathe it in,
We breathe it out

So take it easy on me
Take it easy
I'm so foolish at times
You know this,
You know

So take it easy on me
Take it easy
I believe in something
I have nothing to show for
We believe in something
We have nothing to show for
We believe in something
We have nothing to show for
We believe in something
We have nothing to show for

You can tell by the way we laugh
