

## How Can I Live Without You..

Counting Crows

You can still come and make me coffee in the mornin  
You can still come and cook me chicken fried steak  
You can live your life with whomever you please to,  
As long as someone takes good care of me  
You know I don't mind.  
How can I live without you  
If it means I gotta get a job?  
You could still come, bring me those fancy pastries.  
You can still come round, crawl into my bed.  
You can live your life with whomever you please to,  
As long as someone takes good care of me  
You know I don't mind.  
How can I live without you  
If it means I gotta get a job?
