

The Baby Song

Country Joe and the Fish

Never before, never again
Inside of her all life begins
Far more than we can ever hope to comprehend.

Some part from her, some part from me
Life from our love eternally
Now from the one of us, one more shall be.

Come with me, come with me
And we shall make a baby
Come with me, come with me
And we shall make a baby.

La la la la...

Come with me, come with me
And we shall make a baby.
