

Do As You're Told

Courage My Love

19 unable to believe but you're willing to pretend
So unsure well you've been there before
Now you're feeling it again
You say you've been in love or at least you thought
You didn't feel it enough or was it too much

You don't know you just do as your told [x2]
Uptight you've never been right
Held it close to your chest
You held out but now without a doubt
All they want is the rest

You say we are in love
Don't say that we're not
You didn't feel it enough was it too much

You don't know you just do as your told [x4]

Every time you say forever
Every time you lose a little more

You don't know you just do as your told [x2]

Take your time
When you say your all all mine
Cause you always rush
When you fall for someone out of trust

Take your time you don't know you don't know
When you say your mine you don't know you don't know
Cause you always rush you don't know you don't know
When you fall for someone out of trust you don't know [x2]

You don't know you just do as your told [x4]

Every time you say forever
Every time you lose a little more

You don't know you just do as your told [x2]
