

Everybody's Lonely

Courage My Love

(It's all the same)

I leave the TV on
'Cause in the quiet I feel so alone
I know it's irrational
Just hate the places my head goes

Are you dreaming about me
Or the people that we used to be?
When dreaming was easy
Getting older feels so new to me

Maybe everybody's lonely
Insecure and boring
Funny how some things never change
It's all the same old story
Everybody's lonely
We try to ignore it
Funny how some things never change
It's all the same

It's all the same
It's all the same

Get high all by myself
'Cause all my friends are settling down
Wish I was somebody else
Wish I was making somebody proud

Are you dreaming about me
Or the people that we used to be?
When dreaming was easy
Getting older feels so new to me

Maybe everybody's lonely
Insecure and boring
Funny how some things never change
It's all the same old story
Everybody's lonely
We try to ignore it
Funny how some things never change
It's all the same

It's all the same, it's all the same
It's all the same, it's all the same
It's all the same, it's all the same
It's all the same, it's all the same

Maybe everybody's lonely
Insecure and boring
Funny how some things never change

Maybe everybody's lonely
Insecure and boring
Funny how some things never change
It's all the same old story
Everybody's lonely

We try to ignore it
Funny how some things never change
It's all the same

It's all the same, it's all the same
