## Courage My Love

Call me up, "Hey, baby"  
Talk all about yourself  
All fired up, acting crazy  
Tryna be someone else

Call me over to your house  
Just to make out on the couch, yeah  
I wasn't into that  
Try too hard to be a man  
I don't think ya understand, boy  
I'm gonna help you out

Girls wanna be loved  
Girls just wanna be loved  
Girls wanna be loved  
Oh, girls just wanna be loved

Suffocate your feelings  
Don't wanna tear your soul  
Emotional, keep it all in  
Gotta be in control

Call me over to your house  
Just to make out on the couch, yeah  
I bet you think you're smooth  
When you try to puff your chest  
If you think that I'm impressed, I  
Got some advice for you

Girls wanna be loved  
Girls just wanna be loved  
Girls wanna be loved  
Oh, girls just wanna be loved

(It's all they want, it's all they want, it's all they want, it's all they want  
It's all they want, it's all they want, it's all they want, it's all they want  
It's all they want) all they want (it's all they want, it's all they want, it's all they want  
It's all they want, it's all they want, it's all they want, it's all they want)

It's all they want, all they want, it's all they want  
It's all they want, all they want  
It's all they want, all they want, it's all they want  
It's all they want

Girls wanna be loved  
Girls just wanna be loved  
Girls wanna be loved  
Oh, girls just wanna be loved

That's all they want, all they want  
It's all they want, yeah  
That's all they want, all they want  
That's all they want

That's all they want  
That's all they want
