

Teenagers

Courage My Love

Take a drag from your cigarette
Anticipate the taste of it on my lips
Playing dumb with your cool friends
I wonder what they think about us

You've got a type and all that white Cadillac
Said you like girls who look sad
Never call them back
Wanna live in your past
Leader of the pack
Don't know who you're fooling anyway

You drive fast, wanna live the same
Summer break, don't you forget about me
Wanna run with the renegades
Cuz you're a modern cliché, acting like we're teenagers
Teenagers
We're teenagers
Cuz you're a modern cliché, acting like we're teenagers

After the weekend will it be the same?
No tell everyone it doesn't mean a thing though
What's in the future that you're trying to run from?
Wonder what you're so afraid of

You've got a type and all that white Cadillac
Said you like girls who fight back
Guess it's all an act
Wanna live in your past
Leader of the pack
Don't know who you're fooling anyway

You drive fast, wanna live the same
Summer break, don't you forget about me
Wanna run with the renegades
Cuz you're a modern cliché, acting like we're teenagers
Teenagers
We're teenagers
Cuz you're a modern cliché, acting like we're teenagers

You still wanna live in your past
Chasing the girls who look sad
Clinging to what you don't have
Don't know who you're fooling anyway

You drive fast, wanna live the same
Summer break, don't you forget about me
Wanna run with the renegades
You're a modern cliché, acting like we're teenagers
Teenagers
We're teenagers
Wanna run with the renegades
Cuz you're a modern cliché, acting like we're teenagers
