

## Deep Six

Courtney Jaye

I'm not long for this earth, no one is  
With one hand in the dirt and one in his  
We hear the preacher numbering our sins  
Then we go about our buryin'

When the lilies call my name  
May the bridges I have burned  
Light my way  
Light my way

I've seen my lover's eyes right at the end  
And I've learned enough, I won't go back again  
No caskets, no serenades, and don't preserve my skin  
'Cause I don't wanna be your mannequin

When the lilies call my name  
May the bridges I have burned  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way (My way, my way, my way)  
Light my way
