

## Rise Like The Spirit

Courtney Jaye

You gotta rise like the spirit  
You gotta let your body feel it and move  
You gotta rise like the spirit  
You know the rhythm of the maker is in you

There are ashes in the wind  
There are burns upon your skin  
Feels like you were dying of thirst  
There's an ocean overhead  
Let your energy be fed  
You are more than just bones upon the earth

You gotta rise like the spirit  
You gotta let your body feel it and move  
You gotta rise like the spirit  
You know the rhythm of the maker is in you

Where we're off to I don't know  
But our soul will not let go  
There's a mystery that we cannot conceive  
When your shadow blocks a star  
You'll be dancing with the dark  
Don't let the tango take you to your knees

You gotta rise like the spirit  
You gotta let your body feel it and move  
You gotta rise like the spirit  
You know the rhythm of the maker is in you  
In you
