

Bad Fun

courtship.

Lovin' Jane kept me sane
Thought that we'd never lose
But I'm in pain, with caveman brain
Drooling here next to you

And I know that we're goin' to hell
But let's not think it over
Girl, you've got me under your spell
Stop thinking like we're sober

So boogie on down to mine
She'll never know if we get this right
So can we be dumb, just once
We're making love on the run
A little bad fun never hurt no one

A little bad fun never hurt no one

Where you been, she said, I know you sin
When you leave here at night
She ain't dim, I said I'd cut my limbs
Before I told her a lie

I know that we're goin' to hell
But let's not think it over
Girl, you've got me under your spell
Stop thinking like we're sober

So boogie on down to mine
She'll never know if we get this right
So can we be dumb, just once
We're making love on the run
A little bad fun never hurt no one

A little bad fun never hurt no one

So boogie on down to mine
She'll never know if we get this right
So can we be dumb, just once
We're making love on the run
A little bad fun never hurt no one

A little bad fun never hurt no one
A little bad fun never hurt no one
