

Built To Last

courtship.

Yep, when we were young
 20 bucks on some 501's
 They stick around like a piece of gum
 Won't breakdown
 So when you saw I looked alone
 You fixed me up and you patched the whole
 It don't matter that this love

Ain't a Ferrari or Harley
It won't go too fast
But this car's got good parts and that's all you can ask
Every time you need a jumpstart
Connect your cables onto my heart
Yeah this ride's gonna drive
Cause baby we're built to last

And when were old
Diamond hands cause we knew to hold
Ups and downs but we never sold
We're going to the moon (straight to the moon)
But till then
It don't matter that this love

Ain't a Ferrari or Harley
It won't go too fast
But this car's got good parts and that's all you can ask
Every time you need a jumpstart
Connect your cables onto my heart
Yeah this ride's gonna drive
Cause baby we're built to last

Lalalalalalalalalalalalalalalalalalalala
We're built to last
Ain't a Ferrari or Harley it won't go too fast
But this car's got good parts and that's all you can ask
Every time you need a jumpstart
Connect your cables onto my heart
Yeah this ride's gonna drive

Yep, when we were young
