

# Prom

courtship.

The biggest night  
I skipped out on the biggest night  
But now I'm trying  
But now I'm trying to get it right  
I got some lights in my basement  
I thought I might buy a disco ball  
Peach schnapps try to get wasted  
I got just enough, I got just enough

I'll see if your number is still in my phone  
And if so

You could put your hands around my waist  
Wonder how your candy lips would taste  
Turn the radio on our favorite song  
I wish it were prom tonight  
You looking so pretty in pink alright  
Girl you got that Molly Ringwald smile  
We'll be screaming along to forever young  
I wish it were prom tonight  
Well we could have prom tonight

One I liked  
You always were the one I liked  
So let's get it right  
I'm thinking you should stay the night  
I had the hots for you back then  
Now I can see that I missed my shot  
Do I got the guts is the question  
I got just enough  
I got just enough

You could put your hands around my waist  
Wonder how your candy lips would taste  
Turn the radio on our favorite song  
I wish it were prom tonight  
You looking so pretty in pink alright  
Girl you got that Molly Ringwald smile  
We'll be screaming along to forever young  
I wish it were prom tonight  
Well we could have prom tonight

Slow dancing  
Slow dancing on the moon  
Slow dancing  
Slow dancing with you  
Slow dancing  
Slow dancing on the moon

You could put your hands around my waist  
Wonder how your candy lips would taste  
Turn the radio on our favorite song  
I wish it were prom tonight  
You looking so pretty in pink alright  
Girl you got that Molly Ringwald smile  
We'll be screaming along to forever young  
I wish it were prom tonight

Well we could have prom tonight
