

Same Side

courtship.

We just want the same thing
It could be the real thing
We just want the same thing
(Same thing baby yeah)
It could be the real thing
(It could be the real thing baby yeah)

Baby we could figure it out
Got our hearts on the ground
There ain't no doubt about it
Girl you know I love when you shout
But it must put a real funny taste in your mouth
It's alright
It's ok
We're on the same side anyway
It's alright
It's ok
We're on the same side anyway

We just want the same thing
It could be the real thing
We just want the same thing
(Same thing baby yeah)
It could be the real thing
(It could be the real thing baby yeah)

Baby we could figure it out
Got our hearts on the ground
There ain't no doubt about it

It's alright
It's ok
We're on the same side anyway
It's alright
