

After The Buzzer

Cousin Stizz

After the buzzer we poppin' the bottles with stars and we stunt in'

Ain't really nothin' to me just as long as we all for the money
Right at the buzzer yeah right at the buzzer hit right at the buzzer

Right at the buzzer we made this shit happen I came from the ugly

Yeah I just want some space

Bro you know they throwin' flames can't let em take me way

Shorty found out what I made and wanna meet today

You lil niggas was my son and now it's ton of shade

Plugs said they love to have me back

Brick in the trunk and a weed lab

I came from nothin' I mean that

I got they neck where my feet at

That shit was all for the mean bag

Niggas actin' like they want the relapse

It's cool we back and they seen that

After the buzzer we poppin' the bottles with stars and we stunt in'

Ain't really nothin' to me just as long as we all for the money
Right at the buzzer yeah right at the buzzer hit right at the buzzer

Right at the buzzer we made this shit happen I came from the ugly

Swish

I told you I'm makin' it happen I knew this shit wasn't a wish
I'm rollin' I got the bitch on the 19 I know they ain't rockin'
with crist

Yeah the diamonds are on me they glist I came up from dubbin' and nicks

Uh the feds trynna lock us and pissed they know that we came from the pits

Funny you risking it all on a wrist but that ain't what everything is

My dog gon' shoot if you out of the mix the nigga might pop out of mist

I had to double down up on my hustle you know that you starve or you live

After the buzzer we poppin' the bottles with stars and we stunt in'

Ain't really nothin' to me just as long as we all for the money
Right at the buzzer yeah right at the buzzer hit right at the buzzer

Right at the buzzer we made this shit happen I came from the ugly
