Ain't Really Much

Cousin Stizz

There ain't really much to do around here
So we just really into gettin' money
There ain't really much to do around here
Try to stay high and out of trouble
There ain't really much to do around here
Try to triple stack and flip the money
Everybody around that held me down here
That's why they right here gettin it

Flipping it, little shit reminisce
Poor as piss and I just hit a lick
How the fuck did it come back to this
We ain't have no choice man it's just what it is
Smoking with my dawgs this the wrong trap for this
I'ma tell the story make the world love our shit
I'ma tell the story make the world love this shit...
Come to think about it, you was down to link about it
Billion dollar dreams I was on the brink of talent
Drinking Hennessy like I'm trying to drown my pallet
Please remember me even when I ain't around it
Niggas like 40 always had the cabbage
RIP to him that turned me to a savage
And I just fucked a hoe she come with too much baggage
You can turn a little dope into a lot of thousands
Please believe it
Really seen it, really mean it, now we eating
But it's kinda hard to grub'em I gold teeth it
Your past can't delete it
So make sure that your presence is the cleanest
They know us around the world, I know your heated
Slow smoking purple on the evenings
I know my words slurry cause I'm leaning
I'm rocking all black like a demon
I threw out the mattress, I ain't sleeping... Believe it

There ain't really much to do around here
So we just really into gettin' money
There ain't really much to do around here
Try to stay high and out of trouble
There ain't really much to do around here
Try to triple stack and flip the money
Everybody around that held me down here
That's why they right here gettin it
