

Cheddar Bring

Cousin Stizz

Yeah there's evil things that cheddar brings
But imma keep a round through everything
Cause it could hold me down through everything
Bling, bling designer everything
I call my plug like 'hey what can you give me? '
Cross the country then back to my city
You trappin' you probably move heavy with me
Toast to the times we could never get it

This ain't the life, this the lifestyle
This ain't the life, this the lifestyle
This ain't the life, this the lifestyle
All of my niggas tight wound
[?] gon give me a wipe down
I'm in the hood with niggas right now
She wanna put me on with dykes now
Cause me and her ain't clicking right now
And I'm like Floyd I put the fights down
My niggas shooting, use the knife now
Doing 100 on the Pike now
Remember when they put my lights out
Remember when you put me right out
I'm counting a couple bands a night now
So lil nigga you could pipe down
I'm with your wife, she getting piped down

Yeah there's evil things that cheddar brings
But imma keep a round through everything
Cause it could hold me down through everything
Bling, bling designer everything
I call my plug like 'hey what can you give me? '
Cross the country then back to my city
You trappin' you probably move heavy with me
Toast to the times we could never get it

This ain't the life its the lifestyle
This ain't the life its the lifestyle
This ain't the life its the lifestyle
All of my niggas tight wound
In this till you run up your done up
I'm grinding from sun up to sun up
And if you wasn't with me from the start you can't be there for the come up
I know my dogs was crazy man but I love em
Tryna get us rich, ghetto and thuggin'
Dripped in all designer, Cause I be hustlin'
Need my money pronto, I don't do cuffin
My bro just got a pound through customs
I take a blunt and over stuff it
You get baked just like the oven
My niggas really with the ruckus
Don't believe it, you be bluffing

Uh, I wake up in a different state on em'
My shoulders got a different weight on em'
My momma tell me that she pray for me
I'm tryna get some real estate for her
And Bro just got another case on him

I just hope the devil stay from him
I got a stash of cash away for him
Cause you know one day we'll be straight, 100

Yeah there's evil things that cheddar brings
But imma keep a round through everything
Cause it could hold me down through everything
Bling, bling designer everything
I call my plug like 'hey what can you give me? '
Cross the country then back to my city
You trappin' you probably move heavy with me
Toast to the times we could never get it
