Cousin Stizz

Some people ain't want me to shine
Some people ain't want me to shine
That's never affecting the grind
That's never affecting the grind
That's never affecting the grind
That's never affecting the grind
I'm knowin that now is my time
I'm lookin them right in the eyes
Them people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine

I ain't lyin
I been on my ass and made it fine
Committed to this shit I'll walk the line
Used to have no heat in winter time
But It's your time
It's your time
Voices in my head say it's your time
Roaches in the food I can't eat at dinner time
Now I'm ballin in LA that's the power of the mind

Some people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine
That's never affecting the grind
That's never affecting the grind
That's never affecting the grind
I'm knowin that now is my time
I'm lookin them right in the eyes
Them people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine
Some people ain't want me to shine

Look at all the big moves I been doin'
Really don't compare to what I been thru
Used to give my all and I would still lose
Had to hit that lick I'm on my last two
Everyday was lookin like the last move
Now this shit okay but nigga last June
All the stress would hit in waves like typhoons
I'm a tycoon this shit mine soon
They lead the blind
But imma help you if you in a bind
My old tv used to only work if was on the side
Can't forget the roots bout the struggle I ain't lyin
It's a problem I ain't hidin
Niggas go against the grain I know that's part of the grind
Way back then I always knew that I would fly
Been through that and made it here that's the power of the mind

People ain't want me to shine
People ain't want me to shine

That's never affecting the grind
That's never affecting the grind
That's never affecting the grind
I'm knowin that now is my time
I'm lookin them right in the eyes
