

Million Things

Cousin Stizz

Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does
Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does

Millions made, I go hard in the paint
I'm in the hood boy tell my niggas to link
I get more brain now but its harder to think
Light bouncing off me it be hard not to blink
I took my life and gave it up to the world
I don't be getting hype the drugs be calming my nerves
I got a bitch, I feed her diamonds and pearls
I'm from the bottom but that wasn't my worth
I showed you niggas it don't hurt if you work
Your life won't go you moving slow as a turtle
That popularity contest don't concern us
Cause niggas dying here, its hot as a furnace
We trynna come up where the soil ain't fertile
Cause I got guys who only focus on murder

Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does
Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does

I've waited this long, when the time comes
With weed this strong I don't have lungs
Blood sweat and tears gonna make my mind tough
And you can't take that away
Sacrificing sleep so that my family straight
Friends turn to enemies that's just the way of the fame
Show me something real theirs just too much fake in this game
While you trynna race Imma stay in my lane
If I ain't come up with you we can never relate
Wait

Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does
Been knocked down before, I got up
Tried to move forward when it's not much
They can be a million things, but not us
Does destiny talk to you? Cause mine does
