

Save The Day

Cousin Stizz

Meet me halfway and I'll prepare for the moon
That's as far as I'll go
Why you have the heart but still continue to took
Once you see how it look
Bury your soul
So I'm playin' only me in the truck
Fiscal year bigger than ever before
Persevere when they ain't need me at all
Yeah
When shit get real from the pavement to roof
Uhh
Summer showers winters snows
Count fans at the shows
Pack vans with the bro
All hands in you know
It's called timing
Now bitches wanna meet me outside it
I was just fucked up on talbot
Waiting on my turn but not concerned because I know what's inside me check
When it comes to mine I rather die before you see me sit
They recognize that I don't need a lift
The rent on us their hopes and trusts
The weight goin' up
And waiting on em? Man struggling enough was it
Fearing god Jerry side praying we'll stay alive
I was on jamn' 9 while my guys was hitting crimes
Cross lines penalize so don't think about it
Tinted down mob ties we gon' get you any time

Filling up this drink cause
When you walk away
I call it's all the same
Pouring rain who gon' save the day
When I feel your pain
Pouring rain who gon' save the day

Yeah
Where did you stood at?
Hung the fruits of my labor like a noose with that
And you paying for it I ain't choose for that
Came through? For who man I ain't new to that
There ain't no truth in that so ain't no use in that
When our crew spit the real like ain't no tooth in that
Aye poppin' now it's lit but I still know how hot it get
I can not forget cut me deep so the ties with it
Uhh
Them lame niggas lanes closing
We gon' make a way
Getting high off the money I ain't sober gotta touch it fore the days over
It starts with the code
Made the fam and the friends align so it passes over
I been lucky as clovers
I been hopping and dodging the feds when they be up on us
Got it on lock
And this shit loaded cause we been molded
I saw the signs wait till it's goin' we finna show em uh

Filling up this drink cause
When you walk away
I call it's all the same
Pouring rain who gon' save the day
When I feel your pain
Pouring rain who gon' save the day
