

# Stone

Cousin Stizz

Said it to me then set it in stone  
Say it to me then set it in stone  
Don't let it freeze your foot passed the cold

What you need bae I'm on  
Crunchin' lots of cheese I look neat I'm gettin' it furthermore  
Hoppin' the fence cause of events I couldn't plan on  
Heart in my vest all for the sense in puttin' my mans on

She in the Benz that big ol ass gon' dribble like basketball  
I got the racks that run to no end you knew that though after all  
Real from the lens you say it to me you set it in stone  
Hit on them p's and didn't wait long  
You could be a kid in a minute you grown  
Bro got them hammers involved  
Look up both ways you jump off that porch  
Cause they shoot like basketballs  
It's cold out you better wear minks  
Put it on me you set it in stone

Breakin' down you pass it off  
Eyes stay up we packin' dog  
4 of them thangs we casting calls  
Shades on who lasting long  
Boy I stay high we nasa off  
On danger lines we masked the drought  
Range to yard you know that's gone  
These niggas be gettin' the feds involved  
Had to rock your man's and all see  
Shit ain't all good in here after all  
Told you before I told you again  
Your time is runnin' my total infinity  
Far as my eyes stayed all on the vision  
While I was out here rollin' and flippin'  
Spy on the prize you know I was making it mine  
Cause I turn a no into digits  
Toeing the cracks  
Runnin' on backs  
You go how you livin'  
We showed you what's solid you punked  
Hurt me inside you left me alone out here

Remember you said it to me you set it in stone  
How you gon' switch on your man and actin' like we gon' you home  
I'm from where that shit get left in the streets  
But hey we not makin' the rules
