

# The Wave

Cousin Stizz

Ain't worried 'bout coming up next  
My only concern is a check  
We made the work move out in Texas  
Been doing my thing like a Vet  
Ya'll can just stop with the questions  
Been smoking this weed cause I'm stressing  
You know I'm giving ya'll the wave  
I ain't slept at all in days

I'm the best at doing what I do  
Finish one and bust another move  
Take your shorty out to where I hang  
I ain't even tryna front on you  
If she act right she meet the gang  
She know she don't fit in all the planes  
Send her home back to her mans  
Weed smoke still on her hands  
In my jacket bout a half a band  
Had to represent like the captain  
Y'all be worried bout the bitches boy  
But you stack em up while you stack the bread  
I ain't never had a lack of strands  
Been down I ain't going back again  
I remember breaking work of  
No bitches just me and mans  
Had to hustle times was really hard  
You won't make it if your lackin' heart  
To my dawgs up there that duckin' narcs  
Keep it G homie play it smart  
Shit get crazy man I know it hurt  
Situations left my brother scarred  
Backpack full of work hoping we can make it home from the boulevard

Ain't worried 'bout coming up next  
My only concern is a check  
We made the work move out in Texas  
Been doing my thing like a Vet  
Ya'll can just stop with the questions

Balling like I got a raise  
Cause we out here making plays  
Bitch so bad she need a cage  
Drink so dirty need a maid  
See me shining like a lamp  
Only right you throwing shade  
So fuck them niggas anyways  
Probably fucked they bitches anyway  
Talked to my OG yesterday  
Told me the real ones will remain  
Don't even trip just do your thang  
Empty bottles of that hennesy  
Tryna stay low like a centipede  
All of my niggas got felonies  
I use the music as remedies

Ain't worried 'bout coming up next

And I'm dodging the devil  
Big business, small  
It don't matter any level man  
I'm giving you my all  
Like I'm trying to win a medal  
Yeah  
Foot on the pedal  
Now I'm dodging the devil  
It don't matter any level man  
I'm giving you my all like I'm tryna win a medal
