

Purgatory

Covey

Hey kid
You did good here
Is that so hard
Is that so hard to say kid
You've had a tough year
Is that so hard
Is that so hard to accept

Hey kid
You're still breathing
And that's something worth noting
In your fractured brain
I just need a break so why
Is that so hard
Is that so hard to accept

I know you
And you know me
Been hanging out
Since 23
And when we die
I'll stay with you
If you stay with me in purgatory

Hey kid (hey kid)
You did good here
Is that so hard
Is that so hard to say kid
You've had a tough year
Is that so hard
Is that so hard to accept

Walking aimless through the park
Thinking back to us all together
Things were just how they should be
Life was slow
Life was easy
Now I take pills to keep me safe
I take pills to keep me normal
But I still miss living my life
I miss living my own way

Hey kid
You did good here
You tried so hard
You tried so hard
Blood kid
Still sleeping
I won't wake you

Blood kid
