

## Mr. Cancelled

Cows

I feel blind cause you're out there There's a crime happening somewhere I'm doing time and it ain't fair Hope you're crying, but you don't care

You said I wasn't enough So I went and called your bluff Now I'm outside standing in line

Well that's okay, I'm alright I'm just fine I got prospects, I got pride Don't need your sex Of course I'd come back if I could But I've been filed under "dead wood"

You said I promised the sky But just ate and drank and got high Well it weren't exactly a lie But I fucked up and that's why I'm Mr. Cancelled
