

Bout It

Cozz

Actin like you showin love
Actin like you showin

Actin like you showin love, but I doubt it
By these snakes I'm surrounded
And I really feel some type of way about it
I never crack, always stay grounded
But I know you not a thousand
And I really feel some type of way about
No, you never really had my back but I was just childish
Now I know you're not about it
And I feel some way about it
Now I'm on the road now I'm making thousands
And I'm getting well-rounded
And I hope you feel some type of way about it

Can't trust not one of 'em
Not a nigga or a women
Be wary of the ones whacked down
But really be up to somethin
I ain't perfect I don't judge nothing
But fake vibes gotta run from it, duck from it
No love from it, your brother don't come from it
Can't get a call, not a what's up nothing
Was on the cloth and now you cut from it
Hope your face lookin like you cut onions
I got the gas 91 pumpin
Bitch stressed out so I been juicin
Name a struggle I been through it
Don't forget cause you can't use it
Gotta go through it just to get to it
I swear, can't skip through it
To be a boss you gotta serve
Niggas gotta lotta nerve
Ain't tryna put in the work
But tryna eat all my desert
Kick them niggas to the curb
Woman tryna get a purse
But you gon get what you deserve skrr
Niggas gon live and learn
Niggas gon x themselves out
Look at my ex she stressed out
Don't look at the text she sends out
Ain't got a hand to lend out
Do me right you won't get left out
Tryna confess now
She hopin I become the best out
But you just

Actin like you showin love, but I doubt it
By these snakes I'm surrounded
I really feel some type of way about it
I never crack, always stay grounded
But I know you not a thousand
And I really feel a type of way about
No you never really had my back, but I was just childish
Now I know you're not about it

And I feel some way about it
Now I'm on the road, now I'm making thousands
And I'm getting well-rounded
And I hope you feel some type of way about it

You feel some way
I know you feel some way
Tryna hide that shit
But it's showin all on your face
You want my place
You want this life, and you wanna eat of my plate
Nigga peeping everything, a nigga seeing everything
I just might not it say, that's how I play
Cause you don't respect my presence
And I don't speak to no peasant
It don't even gettin no where
You learned your lesson
Today already learned that lesson
I'ma keep pushing yeah
I just keep pushing
Act like you don't see me
But I know your still lookin
So I'ma keep balling
Fake niggas Keep falling
I blocked my ex cause she wouldn't stop calling

Oh she wouldn't stop callin
(Actin like you showin love)
I know you feel some way
You won't stop callin
(Actin like you showin love)

Actin like you showin love, but I doubt it
By these snakes I'm surrounded
And I really feel some type of way about it
I never crack, always stay grounded
But I know you not a thousand
And I really feel some type of way about
No you never really had my back, but I was just childish
Now I know you're not about it
