

Come Get It

Cozz

On the block with a soda pop and a sober watch
My time never wasted, quit playing
You know its not, planned
You know its hot, they banging and holding Glocks
Like pussy you know its cock
Talk shit like you know a lot
Your body get overshoot
I need a buzz, tell Andy momma to go and shop
And quick 'fore I'm 'sposed to drop
Yeah Cozz & Effect is in effect you get affected
Cozz is sick, Cozz can cause an infection
Ooh she thick, ma can cause an erection
Fuck a thot, I don't cockblock for the best shit
But I did reminisce in skipping class to get ass from mixed batch of ladies
But lately, text full of "ifs", "ands", and "maybes"
World filled with killing, the kids having babies
So bitch pass to hemp fast, that shit has me lazy
I know that laziness a bitch, I'm trying to break the habit
But this place is full of shit, I sit, I can't stand it
Another day in Los Angeles ducking from the bandits in the cut
Under a bandage hoping they vanish goddamn it
So much evil in these streets its been like God damned it
The most civilized done got savage
Praying to my lord pleading that he make it a little easier, you know
Praying like I hope there's soul inside of me, not like the sole of my feet
when I stroll through the streets

Cause this that soulful shit
This that food for less talk not that whole food shit
Nothing fake, not that tofu shit
And I don't owe you shit, but now you know
When you can't come and get it
Cause this that soulful shit
This that food for less talk not that whole food shit
Nothing fake, not that tofu shit
And I don't owe you shit, but now you know
When you can't come and get it

Made a few tracks, Usain, runnin' laps run those
If hip-hop ever falls I put it back on its toes
I was always taught to never put your back to your bros
But watch your back always they could be actual foes
Cozz Cody allow
Yeah this young black Ted
There's new niggas in the game, we just trying to get next
A little sick of school, I'd rather get this money instead
Call the cops, hit a hunger we just trying to get fed
Keep my head high when I feel low
Who tryna to roll, got all this pot fuck a stove
Tone said he gone get me on
So if you got something to say leave a message after the tone
Why ain't they acting the same?
Things really changed, so why make dollars out the remains
It's cool, nigga keep it cool with my crew
We rude never ever did follow rules, that's true

Cause this that soulful shit

This that food for less talk not that whole food shit
Nothing fake, not that tofu shit
And I don't owe you shit, but now you know
When you can't come and get it
Cause this that soulful shit
This that food for less talk not that whole food shit
Nothing fake, not that tofu shit
And I don't owe you shit, but now you know
When you can't come and get it
