

# Fortunate

Cozz

Yeah, yeah  
Look

I tend to drink while I drive, don't know why, I  
Am so fortunate, I'm still alive, I  
Don't make me lose my mellow, I ain't LaLa  
They gon' ask for me, like the Wi-Fi  
Hit 'em and go, flee (Hit 'em go)  
Niggas gettin' no cheese (Niggas gettin' no)  
Nigga be charged up (Charged up)  
Ain't gettin' no fee  
Know niggas who OD  
Get high as the nosebleeds  
And I'm so fortunate (Fortunate)  
I'm in the floor seats

Live my life on the edge (On the edge)  
I'm surprised I'm alive  
When I prayed He heard every word I said  
He heard every word I said (I said)  
Remember fightin' for my life  
When they arrived they swung that knife right at my neck  
Lord knows I could be dead (Dead)  
Stay out these streets, they can only make you bleed  
They can only make you bleed, yeah  
You could be next (Next)  
Stay out these streets, they can only make you bleed  
Only make you bleed, yeah

As an adolescent, I had to learn some lessons, right  
If the vehicle move slow, gotta duck, gotta go hide  
Life flashed right before my eyes  
Homie clutched the pistol on the side  
Pizza man could've just died  
We ain't takin' chances with our lives  
So I close my hands and I pray and I pray  
We spend so much time tryna count up our money  
That we never count up our days, ayy  
A regular day in L.A  
A nigga dies in the summertime over colors that fade, instead of a fade  
A gun to the face, I know I got angels  
'Cause otherwise I don't know how a nigga survive

Live my life on the edge (On the edge)  
I'm surprised I'm alive  
When I prayed He heard every word I said  
He heard every word I said (I said)  
Remember fightin' for my life  
When they arrived they swung that knife right at my neck  
Lord knows I could be dead (Dead)  
Stay out these streets, they can only make you bleed  
They can only make you bleed, yeah  
You could be next (Next)  
Stay out these streets, they can only make you bleed  
Only make you bleed, yeah
