

## Let 'em Know

Cozz

Already sold dope, flows for the low  
I should extra charge  
But fuck it, I'mma just go extra hard  
Like El Chapo and Pablo Escobar  
Forever flex 65th on my chest, I'm scarred  
Back to the old me  
Yeah, Cody Macc I'm holding  
So many flows for the low, how you want it?  
Really quick I hit the shift, I switch my shit  
You can't see where I'm at with it  
I dip low real low cause them niggas is foes  
They might act like you friend but then hate on the low  
I said you know what I'm just gonna show up and blow up  
I don't need no co-sign, but hold up  
Cole bruh, that's my nigga and I'm still with my niggas  
I still switch up, I still roll back with the swishers  
I'm with these bitches, they love me for me  
They didn't want me way back then but now they finally see  
That I'm tha man, I switched the game  
They pay for my movies, they pay for my drinks  
I just got it all backwards, what the fuck did you think?  
Man that's Cozz from the hood but I stayed all good  
Yeah that's Cozz from the hood, wish a nigga would  
I switch up, yeah I still get 'em high while I'm on the road  
And yeah I still get 'em high when they're feeling low  
And I ain't worried 'bout my style, I can switch the flow  
Just to let 'em know  
Just had to let 'em know

That I got flow and I got hoes, and I got more  
Ain't no joke about it  
That dope dick, that good weed, you know that I got it  
You want that, you need that, you know I'm supplying  
You want that, you need that, yeah I'm your supplier  
I got flow and I got hoes, ain't no jokes about it  
That dope dick, that good weed, you know that I got it  
That real rap, that good shit you know I'm supplying  
You want that, you need that, yeah I'm your supplier

And when we die we ain't gon' die with nothing  
But when we die, we hope we die for something  
All I give 'em is truth  
I never mind assumptions but they're used to the lies and the threatening  
So when I spit that truth it's like I sliced an onion  
Got 'em crying and running away from me  
You gotta love being the youngin'  
Coming from nothin' to having threesomes at three something  
From Dreamville to the Mittee Gang, you know the whole team stunting  
And color don't mean nothing  
Yeah, we like 'em black, white or Puerto Rican  
And she only fuck with women when she bored with the penis  
Well I was sorta thinking you could change for a weekend  
Being a player or wifing it, I'm so in-between it  
Cause honestly I know the clubs and hoes don't really mean shit  
But I'm young and I'm a genius so they love it and they throw it  
They don't really love me and I see it, so I have to let 'em know it  
But they still let go, so I had to let 'em know

I had to let 'em know

That I got flow and I got hoes, and I got more  
Ain't no joke about it

That dope dick, that good weed, you know that I got it  
You want that, you need that, you know I'm supplying  
You want that, you need that, yeah I'm your supplier  
I got flow and I got hoes ain't no jokes about it  
That dope dick, that good weed, you know that I got it  
That real rap, that good shit you know I'm supplying  
You want that, you need that, yeah I'm your supplier
