

## Darling, We're Out of Time

Cracker

Darling we're out of time  
The sweet days of spring are gone  
The wine that pours from the keg  
Is bitter and dregs

Some say we gave it our best  
So let's not bring up the rest  
No sense in talking  
We know where we went wrong

Darling we're out of time  
All of the flowers are dead and they're dying  
And leaves are tumbling down off of the trees  
Darling we're out of time  
So pack up that old circus tent  
Even the animals know this is the end  
Darling we're out of time  
Darling we're out of time

Our best days have come  
Our best days are gone  
It's already hard  
Let's not make it harder

Darling we're out of time  
So put on that dirty red lipstick  
You dress like a chick  
Drawn by an outsider artist

Darling we're out of time  
All of the flowers are dead and they're dying  
And leaves are tumbling down off of the trees  
Darling we're out of time  
So pack up that old circus tent  
Even the animals know that this is the end  
Darling we're out of time  
Darling we're out,  
Darling we're out of time  
Darling we're out,  
Darling we're out of time

Darling we're out of time Darling we're out of time  
Darling we're out, we're out of time  
We're out of time  
Darling we're out of time
