

Forever

Cracker

Movie stars
And magazines
Life is good
Grass is green
Come ride with me
Down 62
'Cause all I want
Is to be with you
Past rusted out
Faded towns
Little places
Broken down
Life is good
When I'm with you
I don't need
Anything.

I just wanna live like this now and forever
I just wanna live like this now and forever
I just wanna live like this now and forever
Now and forever, forever

Crystalline
Those perfect dreams
Its all wide open
At seventeen
Start again
Me and you
A simple life
On Route 62
Rusted out
Broken down
Little places
Falling down
Life is good
Or so it seems
I don't need
Anything.

I just wanna live like this now and forever
I just wanna live like this now and forever
I just wanna live like this now and forever
Now and forever, forever

I just wanna live like this now and forever
I just wanna live like this now and forever
I just wanna live like this now and forever
Now and forever, forever
