

# I Can't Forget You

Cracker

Gold summer wheat  
It sways in the breeze  
'Til it fades in the Autumn  
To brown

Cool summer grass  
It beckons and calls  
And I lie here with you  
In my heart

I can't forget you  
I can't forget you  
I can't forget you  
At all

Birds take to the sky  
They never aligned  
They circle around  
Forever

Now I tried but I failed  
To hide and disguise  
This one simple sentiment

I can't forget you  
I can't forget you  
I can't forget you  
No, no

I can't forget you  
I can't forget you  
I can't forget you  
At all  
No, no
